AFO continues administrative area building renovation, replacement plan work

BLM updates public during open house

ANCHORAGE—The Bureau of Land Management (BLM) Anchorage Field Office (AFO) will host an open house on Wednesday, Oct. 15, 2003 from 6:30 to 8:30 p.m. to update the public about the Campbell Tract Facility administrative site building renovation/replacement plan. This meeting, the second in a series of informational meetings, will give the public a chance to view architectural site concepts.

The administrative site houses facilities for the AFO and the Alaska State Office. The need to renovate or replace existing facilities requires a comprehensive evaluation of the existing facilities and development of an administrative site master plan to assure the most effective use of available space. The plan will examine replacing the office building, shops and associated yards; relocating helipads; expanding the warehouse; connecting to municipal sewer and water; and adjusting parking and exterior uses. The design of new or renovated buildings will blend with the site's character and will incorporate energy efficiencies and sustainable features.
